#ThereWithYou

For those who appreciate the difference...

This year your kitchen has worked harder than ever before; catering for every lockdown meal and snack, doubling as an office, home school and numerous other activities. In many ways this unplanned time in the same four walls has helped us to reflect and reevaluate the way in which we live. Does your kitchen suit your lifestyle as well as it could? Does it compliment your property and reflect your personal style and taste?

With over 20 years of experience designing and creating bespoke handmade kitchens and interiors luxury kitchen manufacturer, Davonport work with you from the initial design process through to installation, ensuring that

your new kitchen is sympathetic to your property and the way in which you live.

Locally made

All Davonport furniture is custom-built, handmade to order in their workshops in Colchester. Using only the highest quality raw materials, every piece of furniture produced is made to an exacting standard and finish. This commitment to quality craftsmanship earned Davonport the 'British Design & Manufacturing Award' at the 2017 Designer Kitchen & Bathroom Awards.

Tailored for you

Whether you live in an 'A' listed building with wonky walls and

floors or a blank-canvas new build, there are no 'off the shelf' options, from cabinetry style to oven height, your kitchen is designed to suit your personal wish-list, lifestyle and budget.

Be inspired

The design process begins with an initial consultation in the Colchester-based showroom where you will be able to experience the quality of the furniture and gain inspiration from the wide variety of kitchen styles on display. You can also take a tour of the workshop to see the manufacturing process. ♦
